

# Be a Host Agency

**If you're a nonprofit or public organization in need of free, reliable help, contact MASST to become a Host Agency.**

We can help provide the participants you need to expand your community services. We even pay their wages and fringe benefits – up to 20 hours a week for at least minimum wage while they are assigned to you. You can have the help you need in exchange for providing on-site training to our senior participants. “It’s a win-win situation!”

## **Here is how it works**

MASST is a work training program for persons 55 and older who meet residency and income requirements. If you are interested in becoming a Host Agency for the program, contact us to discuss potential work opportunities at your organization. You will be expected to provide a safe work environment, appropriate training and supervision throughout the assignment. Please note that MASST enrollees can not displace or replace existing employees.

Don't miss this opportunity. Each year, MASST enrollees provide thousands of hours of community service through their Host Agency assignments. For many organizations, becoming a MASST Host Agency has been a rewarding experience. Find out for yourself. Contact Tom Howard at 907-452-6434 ex 223.
